Ministry Suggestions for the Benefit of the People Being Served

- Provide individually wrapped/bagged meals
- Use smallest packaging appropriate to reduce trash
- Consider lack of storage & refrigeration options
- Stay with the food you bring, don't leave trays or bags for later pick-up
- Clean-up trash and haul off, leave area cleaner than when you arrived

Let's not hurt the people we are trying to help – when it looks bad after we leave, they get the blame!
